

GOVERNING COUNCILLORS: LET'S CONNECT!

LET'S TALK COMMUNITY ENGAGEMENT:
What we've tried, what's worked, what we
are wondering?

LIMITED
SPOTS!

As you know, parent and community engagement are one of the levers for the achievement of the Strategy for Public Education. Let's make them happen!

As collaborators, the Governing Council and Principal, both have key leadership roles to play as you learn and lead together to create a learning and teaching environment where parents and community members are engaged and connected as you strive to ensure that all children and their educators can thrive and prosper, learn and achieve. Together we can strengthen this community engagement in 2026!

Come along and join the Dept CE, Professor Martin Westwell, to discuss and explore why engaging your community is a foundational step for driving preschool and school improvement.

Network and share your successes and your community engagement journeys with other colleagues as you help the Department better understand the support your site needs to continue to make this happen.

Each Governing Council Chair is invited to bring a Council colleague and their Principal/Director so that you can learn, reflect and plan as a team!
